PROFESSIONAL SUMMARY

Highly motivated B.Tech student in Computer Science and Engineering with dual expertise in Data Analysis/Engineering and Cybersecurity. Proficient in Python (Pandas, Numpy), C++, and Java, with hands-on experience utilizing Kali Linux and penetration testing tools. Proven ability to translate technical knowledge into practical results, demonstrated through systematic CTF vulnerability assessments and intensive data engineering training.

SKILLS

Programming: C, C++, Java, SQL, Python (Pandas, Numpy)

Web Technologies: HTML5, CSS3, JavaScript

Databases and Tools: DataBricks, MySQL, Linux, Git

Cybersecurity & Tools: Kali Linux, Nmap, Gobuster, Hydra, Penetration Testing, Vulnerability Assessment

PROJECT EXPERIENCE

- **CTF Vulnerability Assessment** | *Kali Linux, Nmap, Gobuster*
 - Engineered a systematic penetration testing approach to compromise a target machine and successfully retrieve root access flags.
 - Conducted extensive network reconnaissance and vulnerability assessments utilizing Nmap and Gobuster to identify and exploit hidden attack vectors.
- **Cricket Player Performance Analyzer** | *Python, Flask*
 - Developed a web-based performance analyzer to process and visualize comprehensive cricket player statistics.
- **Cafe Website UI** | *HTML5, CSS3, JavaScript*
 - Designed and developed a fully responsive front-end interface for a cafe website.

WORK EXPERIENCE

- **Data Analysis and Engineering Training**
COPLUR TECHNOLOGIES *June 2025*
 - Completed intensive training in Python, Data Analysis with Pandas and Numpy and Data Engineering Basics, gaining hands-on proficiency in applying Pandas and Numpy for complex dataset manipulation.
- **Web Development In-House Internship**
KISTECHNO SOFTWARE *July 2024*
 - Executed front-end and back-end tasks, gaining practical development proficiency with HTML, CSS and JavaScript.

EDUCATION

Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur
B.Tech in Computer Science and Engineering (IOT)

Ryan International School, Jaipur
CBSE | Class 10 | Class 12

CERTIFICATES

- Certified Ethical Hacker (CEH) Training - RCAT
- DataBricks Accredited
 - DataBricks Fundamentals
 - Generative AI Fundamentals
- Spoken Tutorial IIT BOMBAY
 - Python training
 - Java training
 - Linux training
 - Advanced CPP training

EXTRA-CURRICULAR ACTIVITIES

- Secured 2nd place in Ad-Mania at Pravah '25 by designing and pitching a targeted marketing strategy to a live audience and judging panel.
- Competed in IQ Arena and Jenga Palooza at ICI Fest '24, successfully tackling rapid-fire logical reasoning and structural challenges.
- Attended 15 days Student Workshop on Data Analytics (SWDA) by SKIT
